CITY'S ANSWER IN PHONE RATE CASE

Questions of Company's Investment Here and Service Rendered Are Emphasized

Ex-City Attorney J. P. Chennault and present City Attorney H. C. Rice, have filed answer for the city in the suit of the Cumberland Telephone and Telegraph Company against the city of Richmond to prevent decrease in the war-time phone rate in Richmond.

A temporary injunction from Judge A. M. J. Cochran of the U. S. Court, is now in effect, restraining the city from enforcing return to phone rates which were in effect before the war. The phone company alleges that its investment and expense is such that lower rates would now be confiscatory and therefore in violation of the Constitution.

Suggestions have been made that perhaps an informal conference of phone officials and city officials and business men might accomplish more toward obtaining first class service at reasonable rates for Richmond than any other means.

Anyway, the City's answer goes into the question of service and investment by the phone company at length. Numerous technical points in the petition are admitted or denied in the answer filed. Some of the principal points set forth in the answer are as follows:

Defendant denies that the value of the plaintiff's property within the State of Kentucky, used exclusively in furnishing its said exchange service at its exchange at Richmond, Ky., is at this time in excess of \$148,000.

Defendant admits that portion of the original franchise granted by defendant, the City of Richmond, which purports, as a condition of said franchise, to fix the rates to be charged by plaintiff for its exchange service outside the corporate limits of the City of Richmond, is separately and severally void, for the reason that it is ultra vires the municipal powers of the City of Richmond, granted under the Constitution and laws of the State of Kentucky.

The defendant further admits and cross-bill herein states that under section 8 of its franchise contracts with this plaintiff, it has said as follows:

"The purchaser shall employ and keep at work a sufficient number of experienced, efficient and competent operators, cut and competent operators promptly and efficiently at all times long distance and local service and to give at all times the best and most efficient service."

It is the duty of the plaintiff to its patrons and subscribers in Richmond, Ky., the best and most efficient service. The plaintiff has breached and violated this said clause of their said franchise contract continually and uninterruptedly since the execution of same, and this notwithstanding the repeated and insistent complaints of this defendant and demands that said service be improved, and notwithstanding the myriad promises on the part of the plaintiff to improve their service and comply with the herein quoted covenant of the said contract.

That plaintiff's willful neglect of, and violation of its said efficiency covenant, herein above quoted, is wholly and totally inexcusable and is so gross as to be a menace to, and to endanger the lives and property of the citizens of Richmond in cases of emergency such as sickness, and fires. That this plaintiff ought to be required by this court to improve and perfect its said telephone system and service in the City of Richmond, Ky., to the standard reasonably contemplated in said section 8, of its franchise with this defendant under penalty of forfeiture of its franchise.

Further answering, defendant states that the revenue derived plaintiff from the operation of its telephone properties, exclusively situated in and used in the cor-

porate boundaries of this defendant city, under the rates put into effect by its ordinance (No. 15, No. 4), adopted October 6, 1921, by this defendant, cover and above its necessary costs of operation and maintenance on this plain, till a higher return on the actual value of the said telephone properties, located and used exclusively within the boundaries of this defendant city, that is fair and reasonable, having regard to the conditions and circumstances under which the services are rendered, and that having in regard to the service rendered and to the efficiency of same, that this defendant is unable to state the exact basis of the rates and revenues of the said properties within the corporate limits of the City of Richmond, Ky., as required, and said figures are such as to confirm the knowledge of the plaintiff, and this Court, in the consideration of the issue, that the rates should be reduced to a level which would be a reasonable return on the investment and expense of the plaintiff in the operation of its telephone properties in and around the corporate limits of the City of Richmond, Ky.

As to the prayer for injunction and damages of this case:

1. That the bill of the plaintiff be dismissed, and that the order of the court granting the order of injunction be rescinded and annulled.

2. That the plaintiff be required to make certain improvements in its service, and that it be required to give at all times the best and most efficient service.

3. That the plaintiff be required to employ and keep at work a sufficient number of experienced, efficient and competent operators, cut and competent operators promptly and efficiently at all times long distance and local service and to give at all times the best and most efficient service.

4. That the plaintiff be required to improve and perfect its said telephone system and service in the City of Richmond, Ky., to the standard reasonably contemplated in said section 8, of its franchise with this defendant under penalty of forfeiture of its franchise.

LITTLE GIRL A FINE TOBACCO GROWER

Miss Pearl Mae Jones, little granddaughter of J. D. Long, of Pound Hill, made an interesting record for her crop of tobacco at sales on the Richmond floor last week. This little lady, who always cultivated a little patch of weed at the time her grandfather is working his land, had 50 pounds of her regular crop and about 50 pounds of leaves which she had harvested after her grandfather had put his in the barn. She got hers in good shape and sold it from 49c to 50c a pound, the entire batch realizing her \$54.20.

Young Racers At Louisville

Louisville, Jan. 17.—Thoroughbred, valued by the owners at more than \$1,000,000, are in winter quarters at Douglas Park and Churchill Downs here. Included among them are the highly bred youngsters in the stables of John E. Madden, the racers trained by Alex Gordon for "Bud" Fisher, the cartoonist, the 2-year-olds of the Jones Brothers and many other well known thoroughbreds. Because of the open winter in Louisville, the youngsters, which became 2-year-olds in January, already have begun their first racing lessons.

WHITLEY COUNTY WOMEN ASSASSINATED

By Men Posing As Dry Agents Force Into Their Home—Rewards Offered

(By Associated Press)
Williamsburg, Ky., Jan. 17.—Warrants charging murder against Linn Jones, Oscar King and Henry Overton of the Tiny Branch neighborhood, were forwarded to deputy sheriffs of that section for service today. The men are alleged to have killed Mrs. Lillie Partin, young wife of a Whitley county farmer, and shot her sister-in-law, Mrs. Lillie Hurst. The house was riddled with bullets by three men posing as revenue officers.

Mrs. Lillian Partin, young wife of a Whitley county farmer, was shot to death, and her sister-in-law, Mrs. Lillie Hurst, was severely wounded last night when three men, posing as prohibition agents, riddled their home with bullets.

The women were at home alone for their children, when the men entered through the wall of the front house. Mrs. Partin was killed by the first shot. Her sister, shot through the body, fell soon.

After the shooting, the men, according to statements made by Mrs. Hurst, three men, all apparently under the influence of liquor, broke into the house. They shouted that they were government agents hunting liquor and meant to search the house.

When they saw the two women lying on the floor, with the crying children gathered around them, the slayers fled.

Today murder warrants were issued by Mrs. Partin's father, against Linn Jones, Oscar King, and Henry Overton, all of Campbell county, Tenn., just across the state line.

A reward of \$50 for each man was offered by Mr. Partin, a farmer and Williamsburg citizen, who is planning to increase the reward. A Gov. Morrow also will be asked to offer a reward.

NIGHT ATTACKS ON FEUDISTS HOMES

London, Ky., Jan. 17.—Reports reached here today of an attack on homes of several members of the Benge faction near Portersburg, Clay county, Saturday night and Sunday morning. It is said that fully 50 shots were fired into the home of Walter Benge, but none of the family were injured, although many of the steel bullets pierced the walls. A similar attack is alleged to have been made on Marsh Bowling's house early Sunday morning.

Leaders of the Benge faction charge that the Philpot-Martins are carrying on a campaign of intimidation to prevent witnesses from going to Manchester where Steve Martin is to be tried next week for the killing of Wood Benge, more than a year ago.

Telford Benge, leader of the Benge faction, who moved to this county several weeks ago, with several of his friends, passed through here yesterday on their way to Manchester "to attend court." Benge, who has a record as a gun fighter, but who has no charges against him in court at this time, says that he does not believe any trouble between the factions will occur at Manchester, while the 50 soldiers are on duty, but fears that clashes will occur on the roads when members of the two clans meet on their way to attend court. Fully 200 men are involved in the feud. All travel in crowds heavily armed.

More Improvements To The Stouffer Store

The J. B. Stouffer Company, delayed in the remodeling of their building on account of unexpired leases of the rooms upstairs, have just about completed their improvements and have made a beautiful addition to Main street with their new front and big display windows. The management stated Tuesday that furniture had been purchased for the suit room and should reach here the first of the month, and that new lines will be added from time to time to this splendid ladies' store, making it complete in every particular.

RURAL CARRIER NEEDED AT NEWBY

The United States Civil Service Commission has announced an examination for Madison county to be held at Beren and Richmond on Feb. 11, to fill the position of rural carrier at Newby, and vacancies that may later occur on rural routes from other post offices. The salary of a rural carrier on a standard daily wagon route of 24 miles is \$1800 per year, with an additional \$30 per annum for each mile or major fraction thereof in excess of 24 miles. The salary on motor routes ranges from \$2450 to \$2900 per annum, according to length. The examination will be open only to citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements, both men and women, if qualified, may enter the examination, but appointing officers have legal right to specify the sex desired in requesting certification of eligibles. Women will not be considered for rural carrier appointment unless they are the widows of U. S. soldiers, sailors or marines, or the wives of U. S. soldiers, sailors or marines who are physically disqualified for examination by reason of injuries received in the line of military duty.

Undergoes Operation

Miss Nora Hutton, the 13 year old daughter of Mr. and Mrs. J. Hutton, on Stillwell avenue, submitted to a very serious operation at the St. Joseph Hospital, Lexington, Monday afternoon, with the hope of restoring her eyesight. The child lost her eyesight after a brief illness a year ago, the cause of which could not be learned and she was advised by local physicians to have an operation, which was performed by Dr. Dewese, of New York City, who seems greatly encouraged, as far as a report from Lexington at a late hour Monday night stated, that the patient could distinguish objects much more clearly, and was very optimistic as to the outcome of the operation. She was accompanied to Lexington by her parents, and one or two close friends, who have been greatly interested in her case, and who sincerely hope for her a very speedy recovery.

Minstrel Parade Looked Good

Crowds thronged the street to view the Legion minstrel parade this afternoon at 2:30. The boys gallantly followed drum major Bill Elder and were drawn up at the rear by the American Legion band under the direction of Col. James Leeds.

The principal streets of the city were covered and from the looks of the organization one would have thought old Al C. Fields and his big company had struck town. The boys were dressed in long brown uniforms with hats to match, and the parade was only a foretaste of the big show that will be pulled off tonight and Wednesday. Already the second night's show promises to be greeted by a full house.

Tickets for Wednesday's show on sale at Perry's drug store.

Bandits Make Daring Holdup of Collector

Louisville, Jan. 17.—Police are searching for the armed automobile bandits who held up F. E. Bridges, collector for the Standard Oil Company, in front of the main office at Fifth and Bloom streets. The holdup men obtained \$75 that Bridges had in a small satchel he was carrying, but overlooked \$750 that he had placed in his overcoat pocket after collecting the receipts of several branches of the company.

ly Kaltenbacher writes in the Louisville Times:
Former United States Senator George M. Martin, of Catlettsburg, is being strongly mentioned in connection with the democratic nomination for Governor, and a number of his friends are urging his availability in a way that smacks of organized effort. Mr. Martin, who succeeded the late Ollie James in the United States Senate, and has long been a member of the democratic state organization from the state-at-large, is a strong political factor in Northeastern Kentucky, a section that is making the claim that it has long been overlooked in the selection of a governor. Those who understand the ins and outs of Kentucky politics readily can understand that if Mr. Martin seriously entertains the notion of running for governor he would have to be reckoned with by other aspirants.

Stanley on "Normalcy"
Senator Owsley Stanley has many critics—but just as many friends. Say what they want about him, he doesn't trim his sails to every vagrant wind that blows. When he takes a stand, you may rest assured you'll find him right there and on the job. And there's never a time when he doesn't have a couple of back-shot loads in his gun for the republican party and its policies. He spoke at the Jackson Day dinner in Kansas City the other night and he gave the democratic assembly something to think about and to talk about. A dispatch says he denounced the republican emergency tariff as "a pinched-back gold brick."

The result of the emergency tariff so far as the farmer was concerned was "nil," Stanley said, as the prices of cotton, cattle, corn and wheat had gone down instead of up since its enactment. "Coming into power in an era of unexampled prosperity," Senator Stanley said, "with no unemployed to be found between the seas, and labor receiving the most magnificent reward known in the annals of American enterprise, the republicans promised to maintain prosperity and to adjust and stabilize business and business conditions. This political and industrial equilibrium the President 'billed' 'normalcy,' whatever that is. "If normalcy is industrial paralysis, idleness and despair for the public, or closed mills and factories for industries, exorbitant rates for carriers or shattered markets and falling prices for agriculture, then, indeed, we have normalcy with a vengeance."

The new tax law, Senator Stanley said, was "incubated in a breaux so involved and complicated with technical provisions, so doubtful and twisted that the experts had swimming of the head in attempting to read it, and members of the committee were unable to obtain enlightenment from the conflicting opinions of their own experts." "Impotent in the administration of domestic affairs," he added, "the administration is ludicrous in its foreign policy. One fine morning the President advises the country that the four-power treaty question in no way guarantees political integrity and political independence of Japan. "Upon receiving this astounding information, Lodge and Hughes like forthwith for the White House, and at the conclusion of a unique interview the President smilingly emerges and assures the amazed press and public that his own commissioners are of another opinion, and that, after all, it is a matter of small concern whether this treaty is loaded with lump sugar or dynamite."

Berea Legion Officers
Members of Cleveland Frost post of the American Legion at Berea, who will be well represented here at the Legion minstrel, held a meeting in the smoking-room at Boone Tavern and elected the following officers to serve during the coming year: Commander, Carroll Batson; Vice Commander, E. UNCLE SAM HAS NEW SAVINGS CERTIFICATES

Postmaster R. C. Stockton has received news from Washington that the United States government offers for sale through the post office department a new issue of U. S. Treasury Savings Certificates in \$25, \$100 and \$1000 denominations. Until further notice, the selling price of the new certificates will be \$20, \$80 and \$800 respectively for the three denominations. These prices are flat and will not change from month to month as in the case of previous issues. The certificates will mature five years from date of issuance. The legal limit for any one person to hold is \$5000 maturity value of any annual series of these certificates. The certificates issued within a given calendar year will constitute one series. The new certificates will be redeemable at the Treasury Department, Washington, D. C., at maturity, five years from date of issuance at \$25, \$100 and \$1000 for the respective denominations. Payment before maturity will be made by the Treasury Department at the rates specified for each month in tables printed on the certificates. Sale of \$5 War Savings Stamps and 25¢ Thrift Stamps has been discontinued.

LABOR HEAD SEES BETTER CONDITION

(City Associated Press)
Louisville, Ky., Jan. 17.—The peak of unemployment in Kentucky has been reached and from now on conditions may be expected to improve, in the opinion of Pat Filburn, supervisor of State Labor, who said today he expected a marked change for the better when building opens about April 1st.

Mr. Filburn estimates that 75,000 men are without work in the state, of which number between 30,000 and 35,000 were employed in the coal industry. The mild winter and the increased use of gas for domestic purposes are ascribed as reasons by coal operators, he said. "Practically all contract mines are closed down, according to the labor supervisor, who estimates that only about 20 per cent of Kentucky mines are in operation. The agricultural implement industry also is hard hit, according to Mr. Filburn. Normally 900 are engaged in the making of farm machinery in Louisville alone, he continued, whereas at present only about 200 are employed. Reasons for this condition, it was stated, are that during the high war prices for farm products the farmers stocked up on farm implements and that export trade practically is shut off now due to the financial depression in Europe.

Principal sufferers from unemployment are the "white collar" man and the unskilled laborer, said Mr. Filburn.

The textile and tobacco industries are the only ones that are holding up, he said, and they are about normal.

Normalcy in Mr. Filburn's opinion, will not be attained before eighteen months.

PLAN MEMORIAL TO "MARSE HENRY"

Louisville, Jan. 17.—Friends and admirers of the late Henry Watterson, dean of Kentucky newspaper men, are advancing numerous plans for suitably honoring the memory of the dead editor. Kentuckians generally are interested in the erection of a monument or establishment of a memorial for him.

The Kentucky editors are using their papers in voicing approval of the suggestions, prominent citizens in Louisville and elsewhere are writing to newspapers, expressing the hope that the movement will be carried to a successful conclusion. Desha Breckinridge, editor of the Lexington Herald, says that "Kentucky would honor herself by a fitting memorial of his services to his beloved state and his fellow men."

"All Kentuckians owe an irrefragable debt of gratitude to Henry Watterson for his superb leadership in averting the factors of reconstruction," Mr. Breckinridge said.

In addition to the suggestion that a monument be erected to Mr. Watterson, advocates of other ways of honoring the writer's memory have proposed the naming of a city park for him or the erection of a memorial bridge in Cherokee park.

HERE'S THAT OTHER NORMAL SCHOOL BILL

(City Associated Press)
Frankfort, Jan. 17.—Establishment of two normal schools, one in the western part of the state and the other in the eastern part of the state by the State Board of Education is authorized in a bill introduced in the House of Representatives by Representative R. F. Stewart. The bill authorizes the board to accept gifts of land and buildings or money for establishment of the schools which shall be for training white elementary teachers. It appropriates \$30,000 each for maintenance and operation of the schools but provides that the appropriations shall not become available until each school shall have received gifts of land and buildings or money or both, equivalent to at least \$100,000.

DODGE BROS. SPRING ATTRACTIVE OFFER

Retroactive Reduction in Price Causes Favorable Comment Among Auto Buyers

Detroit, Jan. 14.—The following article, regarding the new price of Dodge Brothers Motor Cars appeared Tuesday in all the leading New York newspapers: Fifteen hundred Dodge Brothers dealers were surprised to learn that the price of Dodge Brothers Motor Cars were reduced in effect on January 1st. Official announcement of the reduction, the form and nature of which caused a sensation in automobile circles, was made by E. J. Haynes, president and general manager of Dodge Brothers, at the Fifth Annual Meeting and Banquet of Dodge Brothers Dealers in the Pennsylvania hotel late this afternoon.

The reductions made by Dodge Brothers is decidedly unusual in that it is both retroactive and indefinite, that is, according to the announcement, the new prices of Dodge Brothers cars will not be made public until February 1st, but will apply on all cars sold after January 1st. This means, of course, that persons who have bought Dodge Brothers cars since the first of the year will be entitled to a rebate, the amount of which is still unknown to the public. The official form of the Dodge Brothers announcement as it appeared in newspaper advertisements so timed that their appearance on the streets would be almost simultaneous with the verbal announcement at the Pennsylvania hotel meeting, was as follows:

"Dodge Brothers announce on February 1st, 1922, a substantial reduction in the prices of their cars effective January 1st, 1922."

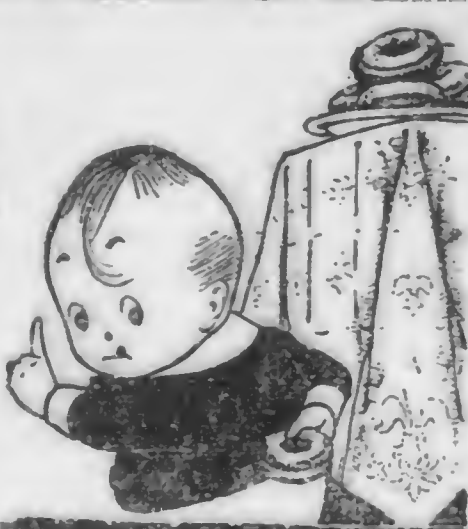

In view of the many other definite reductions announced by various automobile manufacturers, it was instantly conceded in all quarters that Dodge Brothers had made a shrewd maneuver. All officials of the company, including Mr. Haynes, however, refused point blank to make any comment in addition to what was formally announced.

The Dealers meeting held by Dodge Brothers was probably the largest and most pretentious of its kind on record. The large ballroom of the Pennsylvania Hotel accommodated only about two-thirds of the diners, while the others were placed in the foyer and adjacent rooms.

At the conclusion of the luncheon, tables were withdrawn to make room for all guests, whereupon another big surprise, the first of the day, was revealed. It was a play, "Present Company Excepted," written by Montague Glass especially for this occasion, and produced by an all-star cast, including such prominent Broadway celebrities as Barney Bernard and Julius Tannen. The play portrayed Abe Potash and Morris Perlmutter, for the creation of which Mr. Glass has long been famous, as Dodge Brothers Dealers at Cyprus, L. I. Mr. Bernard played Abe and Mr. Tannen was Morris. The efforts of Messrs. Potash and Perlmutter to live up to the policies of Dodge Brothers were extremely ludicrous and the 1,500 guests laughed themselves almost into hysterics from the rise of the curtain to the last tumultuous encore.

The production of such a play, which was of standard length, equipment, etc., was not only unprecedented as a private entertainment, but was a decided novelty to the actors. Every guest at the luncheon was presented with a handsome leather-bound book of the play, many of them containing the autograph of Mr. Glass. Owing to the unusual success of the performance, it is entirely probable that Mr. Glass will have the show produced for general release, as his contract with Dodge Brothers provides for only the one performance.

The address of the president, Mr. Haynes, who was introduced by C. W. Matherson, general

sole manager, followed the show. Mr. Haynes reviewed the success of the past year in which Dodge Brothers were conspicuous as one of the leaders and emphasized the greater possibilities of 1922. He supplemented his talk with a motion picture showing some of the more important methods by which the factory had cooperated with the dealers in enabling them to meet the usual heavy demand for cars in the spring. The picture closed with a reproduction of the newspaper in which appeared the announcement of the price reduction—the first intimation that such a move was even contemplated by Dodge Brothers. It was an extremely dramatic final touch to an exceptional program.

Prevents Picking Up of Wireless Messages

Moscow. — Discovery of a method whereby wireless messages may be sent to a definite receiving station without the danger of being "picked up" by other stations is claimed in an announcement by the Official Press Bureau.

A Ukrainian electrical engineer named Chayko is responsible for the discovery, and it is stated that, by means of a simple apparatus, Chayko straightens out and groups what are termed the "locked power lines" of the magnetic field into parallel rays. These rays, he says, can penetrate mountains, thereby avoiding the necessity of high antennae.

It is also asserted that the discovery will enable the location from the surface of metal deposits in the earth and will be of great service to medical and other sciences.

Chayko is continuing his experiments for the scientific technical department of the Ukrainian government.

AMERICANS LOSE LUXURY TAX

Forget Their Receipts, So French Government Does Not Refund Sums.

Paris, France. — Several French newspapers are protesting against what they term "the misplacéd generosity" of the government in refunding to Americans, when they return to the United States, the 10 per cent luxury tax they have paid on purchases. The newspapers say the government is giving away hundreds of thousands of francs in this way which rightfully belong to the country.

Americans have read these protests with not a little surprise. Many who have tried to get back the total of their luxury tax have discovered the difficulties are many. The first and most essential demand of the government officials at the port of embarkation is that all receipts of purchases must be presented. Luxury tax covers women almost entirely, and most of them forget or lose these receipts.

Those who know of this demand are comparatively few, so the luxury tax, so far as most homeward-bound Americans are concerned, usually remains in France.

DOCTORS HAVE HARD TIMES

London Physicians Blame Home Surgery and Faith Healing for Drop in Business.

London. — Physicians and surgeons have fallen upon lean times, and complaints of dwindling practices are widespread.

Fashionable doctors say that so many ordinary practitioners have had war-time experience with surgery cases that, in thousands of instances, they now do their own operating instead of sending their patients to specialists. Another reason is that formerly well-to-do people, who would in other circumstances have consulted a prominent physician, now go to hospitals where they obtain treatment at much lower cost. Others say that women now prefer to be attended by doctors of their own sex and that psychomaniacs and various forms of faith healing account for the falling off in the number of patients.

SPLENDID ROADS AND NO INCREASE IN TAXES

Possible If Bonds Are Voted, Says State Engineer Boggs At Home Here Sunday

State Road Engineer Joe S. Boggs spent Sunday at home with friends here. He talked with many about the proposed big road bond issue. Mr. Boggs declares that Kentucky can vote this bond issue without increasing her taxes one cent. He is very emphatic about this phase of the question. He believes the big bond issue is the only solution of the good roads question for the state. What he says will have much influence here where he is known so well and so highly esteemed.

Construction of four thousand miles of highways, connecting the county seats of Kentucky, without additional taxation to the people of the state is embodied in the bill which was presented to the General Assembly Monday. The bill carries a bond issue of \$50,000,000, according to Mr. Boggs, but the plan is such that additional taxation will not be needed.

The plan of construction is that outlined by the 1920 General Assembly and represents an estimated expenditure of about \$50,000,000, the money to be expended over a period of from three to five years, depending upon the facilities for construction. The plan has been worked out carefully by the Road Department and when the construction is completed Kentucky will have four thousand miles of good roads, according to Mr. Boggs.

The plan for retiring the \$50,000,000 bond issue is based on the use of the present income of the Road Department. This income represents \$3,000,000 on the automobile license tax, the gasoline tax and the three cent property tax. That sum will retire the bonds and pay the interest on the entire issue in thirty years. The interest on the bonds shall not be more than five per cent, according to the bill.

The issue of the bonds is limited to \$10,000,000 each year for five years because that amount is all that the department can spend economically, according to Commissioner Boggs. There are several reasons for this limiting of yearly expenditures, he said, the chief ones being lack of sufficient material and the shortage in the number of competent contractors and highway engineers. At present the State of Kentucky produces just a certain amount of road building material and this amount can not be increased to take care of an enormous increase in road building. Any expenditures over the proposed yearly quota would result in extravagance, according to Commissioner Boggs.

The plan outlined by the 1920 General Assembly was for the construction of good highways connecting the county seat towns of the entire state. This would give the state about fifteen hundred miles of trunk line roadway, the system to be constructed of concrete, brick or asphalt. The remaining twenty-five hundred miles will be constructed with lower type surface, this system to embrace the secondary roadways.

The government aid to road building would bring the total amount to \$62,500,000 under the present arrangements with the possibility of this being increased to approximately seventy five millions under further federal aid. The measure as outlined has the backing of the Kentucky Good Roads Association, Good Roads Department and other organizations. The bill was drafted by former Attorney General M. M. Logan, of Louisville.

FLORIDA CANE SYRUP USED FOR MOONSHINE

City Associated Press.
Tampa, Florida, Jan. 17.—The low market price for cane syrup and the over production of sugar cane and sorghum is responsible for a boom in the moonshine liquor industry in several sections of Florida, according to A. L. Allen, Federal Prohibition Director for this state.

"Last year our farm crops were small, except the cane crop, which was larger than usual," said Mr. Allen. "One year ago this month cane syrup was selling at \$1.50 a gallon. This year, with double the crop, people in West Florida have told me they are offered only 35 and 40 cents a gallon for their syrup."

"Many of these people in these circumstances have found the parting of the ways and have sold their syrup to a bootlegger neighbor or have used it themselves in making moonshine. Only three gallons of syrup are necessary to make a quart of liquor. The market value of the syrup is \$1.05 to \$1.20, while the quart of moonshine will sell for \$5 or \$6."

WEAK; RUN-DOWN

Carolina Lady Got So She Could Just Drag—"Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mahe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became drabby—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag."

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good."

"Cardui built me up as no other tonic ever did."

"I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. M. describes. NC-143
